Thank you to R6 Super 6 Official Horse Show Publication

InStride EDITION

Elite Sponsor

InStride Edition is dedicated to the people who breed, raise, train and show performance horses at the highest level. The focus begins with young futurity horses competing in events ranging from longe line to western pleasure and hunter under saddle classes. In the pages of the InStride Edition print magazine, published monthly, and its digital counterpart, there will be no better source for information on the pleasure horse industry. But our coverage doesn't stop there. InStride Edition follows those pleasure horses as they graduate on to horsemanship, western riding, trail, hunter hack and performance halter events. Clearly written, skillfully photographed, step-by-step articles deliver the expertise of the masters to participants at every level. The magazine explores topics ranging from the latest developments in veterinary science and horse care to analysis of the best paying show programs across the globe. There are no breed barriers here. If you show in a performance event with a quarter horse, appaloosa, paint, palomino, buckskin, roan, or POA, InStride Edition provides you with the latest news that you can use to help with your own goals. Whether it's the winners of the most recent show or futurity or the latest rule change in your own association or even fashion trends inside show rings across the country, you will find what you are looking for in the pages of InStride Edition.

SMARTPAK™

PLATINUM SPONSOR

SmartPak is the largest equestrian retailer in the US. But that's not the reason we're here. At SmartPak, we're on a mission. We're making the world a better place, using our smarts to power healthy horses and happy riders. From creating innovative solutions (like SmartPaks) to offering expert advice and information that makes riders a little bit smarter, we're changing the world, four hooves at a time. You're the reason we're here and our smarts are at your service.

PLATINUM SPONSOR

The Direct Action Company, Inc. (also known as dac® Vitamins and Minerals) began in 1983 with a single product called Direct Action. It was based on a "new" feed technology called chelation, where a mineral is wrapped with an enzyme to naturally enhance the utilization of the mineral. Today, biotechnology in the feed business has gone from an obscure area of research to become an industry in its own right. We have been able to give our customers products that will enhance the performance of their horses, whether they are working in the fields or showing in the ring.
